

## LTS TESTS

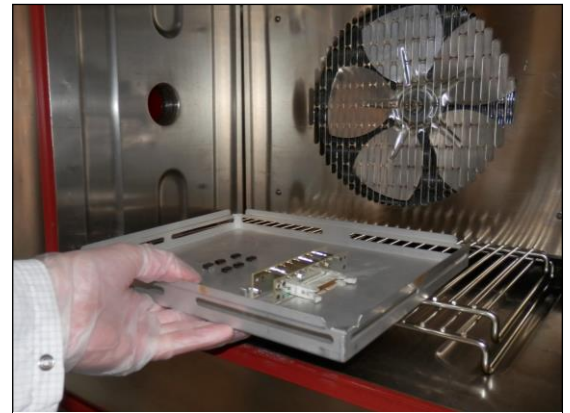

### Low-temperature storage

#### DESCRIPTION

**AdvEOTec** has a climatic chambers park, located in Electrostatic Discharge Protected Area (EDPA).

Our equipment enables us to carry out your low temperature storage tests up to -65°C.

These low-temperature resistance tests are parts of the range of services at **AdvEOTec**.

*Set-up of the components in the climatic chamber*

#### Types of components :

- Electrical connectors
- Optical connectors
- Laser diodes, imagers, photodetectors
- Others...

#### According to standards such as:

- GR 468
- GR 1209
- GR 1221
- MIL-STD-750
- MIL-STD-810
- MIL-STD-883
- Others...

#### Specifications :

LTS Climatic chamber	
Volume :	60 L
Temperature range :	From ambient to -65°C
Dew point :	< 50°C

#### Some tests also available :

- RTC : Rapid temperature change
- HCH : Thermal cycling in temperature
- STC : Slow temperature change
- HTS : High-temperature storage
- TS : Thermal shocks tests

*\*Other test configurations, contact us...*
