

## OUR SECTORS OF ACTIVITY

- Space
- Aeronautics
- Industry
- Defence
- Energy
- Transport
- Telecoms

## Design and Production of Measurements or Tests Benches

Since 2003, AdvEOTec is a laboratory that carries out measurements, tests and expertises on optoelectronic components and systems, from evaluation to the complete qualification of these systems.

AdvEOTec also is an engineering office which design and build benches and instruments from your specifications.

# OPTICAL, ELECTRICAL, MECHANICAL AND THERMAL DESIGN

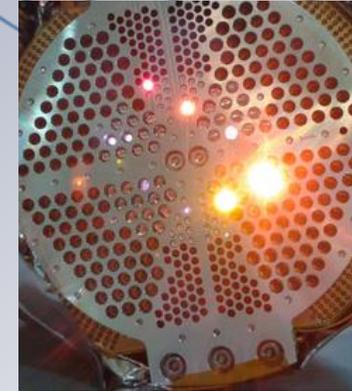

# SOFTWARE ENGINEERING

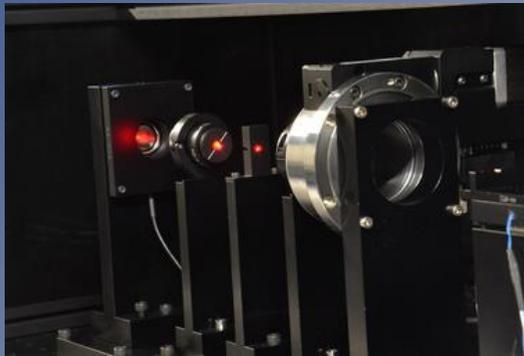

- Modelling and design
- Bill of material (BOM)
- Evaluation of technological risks
- Prototype from your set of specifications

- Software definition
- Acquisition and data processing
- Programming
- ATE (Automatic Test Equipment) controlling numerous instruments and devices

# QUALIFICATION AND SYSTEM VALIDATION

- Metrological validation
- Procedure validation

# PROCUREMENT AND CONTROL

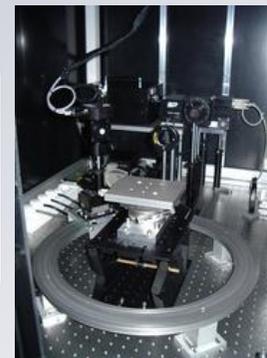

# PRODUCTION, ASSEMBLY, INSTALLATION AND SET UP

# TRAINING AND IMPLEMENTATION

- Components and equipment procurement with verification and control
- Selection and follow-up of suppliers and subcontractors

- Integration of the complete system
- Automation
- Manufacture and validation of subsystems
- Development of dedicated optical measurement and test systems

- Manufacturing files
- Specific packaging
- Training and implementation assistance
- Maintenance program
